Objective

As a passionate and detail-oriented Front-End Developer, I am eager to apply my skills in HTML, CSS, Bootstrap, JavaScript, React JS, and JSON to build responsive, user-friendly, and visually appealing web applications. With a strong foundation in front-end technologies and a focus on clean, efficient code, I am committed to delivering high-quality solutions that enhance user experience. I am looking for an opportunity to collaborate with a dynamic team, contribute to innovative projects, and grow as a developer in a forward-thinking company.

Tech-Skills

- Front End : HTML, CSS, JavaScript, JSON.
- Frameworks : Bootstrap, React JS.
- Software : Visual Studio, GitHub.

ST Mary's Boys Higher Secondary School

2019-2021

Vettavalam.

SSLC

Government High School

2018-2019

Nayanur.

Projects

Title : Job Portal website [link](#)

Description : The Job Portal website is a dynamic and user-friendly career platform designed to connect jobseekers with employers. This platform facilitates the job search and application process while offering recruitment solutions. It is optimized for both job applicants and employers, making the experience seamless and efficient.

Tools: HTML, CSS, JavaScript, JSON, Bootstrap.

Title : Personal Portfolio Website

Description : I built this personal portfolio to showcase my development skills, highlight my experience, and provide an interactive platform for potential clients or employers to explore my work. This project is a reflection of my ability to design, develop, and deploy a responsive and dynamic web application using modern web technologies.

Tools : HTML, CSS, Bootstrap, JSON, React Js.
